Brand Story

At Just Marine Solutions, our journey started long before this catalogue ever existed. As senior sailors who have owned and maintained our vessel for many years, we have experienced first-hand the challenges of sourcing quality marine parts and products. Through trial and error, we have learned what works, what lasts, and - just as importantly - where to find it.

In 2015, we launched our own line of marine products, originally to equip our own boat. What began as a practical solution quickly caught the attention of other boat owners. Fellow sailors started asking for recommendations, and soon we were sharing our knowledge, our network, and eventually our products.

Over time, we have built a strong reputation within the sailing community. Our sourcing network includes long-standing, trusted partners who consistently deliver high-quality products and solid value. We do not just list products - we stand behind them.

Because we use them ourselves!

We also believe something simple but important: **owning and enjoying a boat should not cost a fortune**. You should not have to break the bank - or a leg - to enjoy life on the water. Our mission is to make boating more accessible and affordable, without compromising on reliability, style or quality.

Please note: Not all items are kept in stock. Some are made to order, and others may have a minimum order quantity. But everything in this catalogue has been carefully selected based on real-world use, proven performance, and long-term value.

This catalogue is our way of giving back - sharing what we have learned with the wider sailing community. Enjoy browsing, and do not hesitate to get in touch. We are always happy to support fellow sailors.

Fair winds and following seas,

The Just Marine Solutions Team
